**Fellow textile innovators,**

Flocus is a natural, eco-friendly textile brand that offers a complete range of textile and materials, for companies to tailor make their own eco-friendly product line. Flocus respects nature by using kapok, a 100% natural, biodegradable fiber with unique functional properties.

We are excited to announce that we will attend the Performance Days in Munich again this April and hope to see you there. After winning the Eco-Performance-Award last year, we are curious what this year brings along. During this fair we will present our new yarns, fabrics and filling. Take the opportunity to discover our products and talk to our team in person about the innovative possibilities around the kapok fiber. We will be exhibiting our products at booth 500 on April 20<sup>th</sup> – 21<sup>st</sup>.

Do not forget to watch our commercials to find out more about Flocus and kapok at <http://www.vimeo.com/flocus>.

We hope to be in touch soon or to meet you at the fair!  
Thank you and kind regards,

Flocus Team
