MANILA HEMP PAPER YARN

**100% Biodegradable**  
**Sustainability**  
**Natural**

### Environmentally Friendly Production:

Crafted from Abacá, it absorbs carbon dioxide during growth, eco-friendly support for Earth.

### Lightweight and Durable:

2/3 lighter than cotton, stay strong after 50 washes, naturally resilient.

### Natural Antimicrobial:

Abaca contains antibacterial ingredients that maintain its effectiveness even after repeated washing.

### UV-resistant:

Abacell fiber irregular in shape and tightly woven with fabric, effectively blocks ultraviolet rays.

### Biodegradability:

Abacell biodegrades 96% in soil within 50 days.

## Pineapple Leaf Fiber

### Renewed Resource Value:

Creating entirely new value for overlooked resources.

### Exceptional Toughness:

Durable pineapple leaf fibers resist breakage.

### Cool and Comfortable:

Ideal for summer wear with cooling properties.

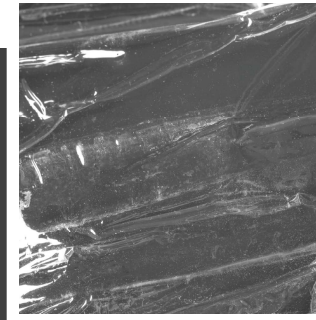

### Sustainable Production:

Environmentally friendly, ESG carbon reduction practices minimize impact.

### Versatile Applications:

Pineapple leaf fibers suit various products.

# FiM

## DMF FREE PU FILM

### Eco-Friendly Film:

DMF Free for eco-friendliness.

### Premium Performance:

Wear-resistant, flexible, and chemically durable.

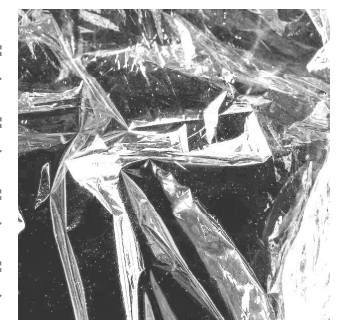

### Versatile Use:

Ideal for various packaging and industrial applications.

### Green Production:

Adheres to environmental standards.

## PolyPore

### Eco-Performance:

PFAS and solvent-free.

### High-Performance Design:

Waterproof, breathable, lightweight.

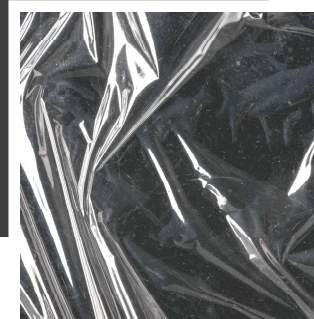

### Safety Assurance:

Lab-tested PFAS-free. Regulatory compliant.

### Versatile Applications:

For sportswear, diverse outdoor designs.

## PU-A1

### A1 Tested:

Rigorously A1 waterproof breathable tested.

### No Swelling When Wet:

Non-swelling, perfect for water-resistant attire.

### High Water Pressure Resistance:

Exceptional durability under high water pressure.

### Competitive Pricing:

Budget-friendly option without compromising quality.
