## INTRODUCING:

# NordShield CiTex®\*

DURABLE ANTIMICROBIAL TECHNOLOGY

A nature-based antimicrobial treatment specially developed for synthetic fibers.

- 99% microbe reduction
- Biodegradable active component
- Wash durable

NordShield CiTex® – a durable barrier based on citric acid. Easily applied to fabrics or ready-made products. Wash durability for long lasting effect.

\* Pending EPA Registration Approval

## TEXTILE PROTECTION, DRIVEN BY NATURE

NordShield develops nature-based barriers that make textiles and clothes last longer.

Our mission is to enable the textile industry's shift towards sustainability by making quality products perform even better.

# Textile protection, driven by nature

A SUSTAINABLE BARRIER  
THAT MAKES GARMENTS  
AND GEAR LAST LONGER

Nordic Biotech Group Ltd | Keilaranta 15 B | 02150 Espoo | Finland  
info@nordshield.com | nordshield.com

Adding freshness  
to garments and gear

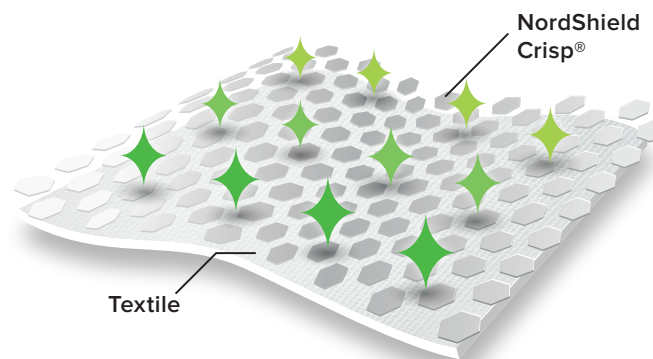

## NordShield Crisp®

NON-BIOCIDAL ODOR CAPTURE TECHNOLOGY

### NORDSHIELD CRISP® IN SHORT

- Works against bad odor, fabric deterioration and microparticles emissions
- An innovative alternative to traditional non-sustainable textile treatments
- Highly effective, scalable, safe and sustainable

Based on wood extractives. Keeps products odorless, fresh and longer lasting. The molecular-size barrier is invisible, the freshness is obvious.
