**Product introduction**

## Product overview

 Unprecedented comfort and adhesive ability, with strength and flexibility coexisting.

 Made of polymer nanofibers, which have similar characteristics and dimensions to cotton fibers, providing a delicate and soft feel similar to cashmere.

 The tight interconnection and interlacing of fibers give them powerful adhesive properties similar to the principle of hook&loop magic tape.

## Application

## 02 Application

✓ **Freely** foldable, **everything** can be wrapped; Magic self-adhesive, safe protection.

✓ The packaging is **tight** and **the material is durable**, effectively preventing items from scratching each other and ensuring the safety of equipment.

✓ The fabric is treated with **waterproofing** to prevent damage to items from daily water splashes.

✓ Its adhesive strength remains the same even after being washed with water, and it can be **used repeatedly**.

**Magic Stick-it  
Wrapper Cloth**

# menstrual and incontinence underwear

This is a **reusable pad** that pairs with menstrual or incontinence underwear to **provide reliable protection against leakage**.

It is also an **environmentally sustainable choice**. Compared to commonly used disposable sanitary products, its reusable design **reduces the environmental burden, while also being more cost-effective**.

When the pad is full, it can be **easily removed for cleaning and replacement**, ensuring a fresh and comfortable experience.

## 02 Application

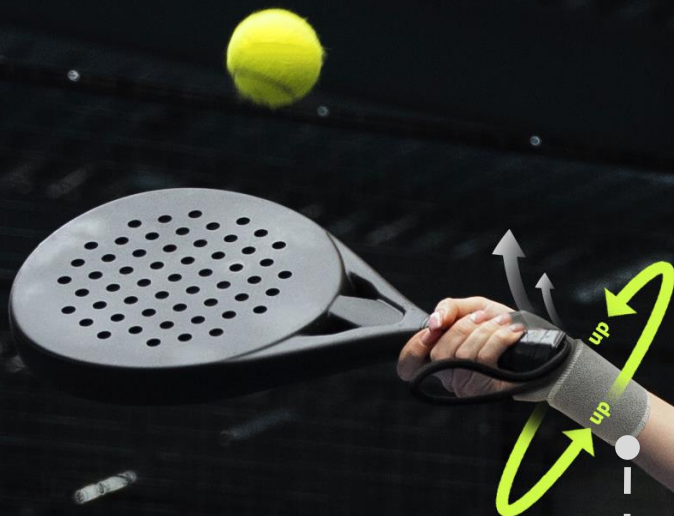

### Neck support

Soft neck protector, **warm** and **breathable**. SticEase™ is lightweight and flexible, allowing for adjustable neck circumference, providing a perfect fit for the neck curve.

### Sports bandage

Lightweight, thin, breathable fabric for bandages that allows for easy stretching and wrapping, without being restricted by the size of different body parts. It is adjustable to be the second layer of your skin.

## Market prospects

### Unlimited creative possibilities

This is the creative fabric that was praised by the "Godfather" of the lingerie industry, Ms. Jos Berry. For designers and the garment industry, the SticEase™ magic fabric offers unlimited creative possibilities.

It can easily connect fabrics without the need for weaving. While ensuring comfort, it allows you to "design" your clothing by **layering, disassembling, and replacing components.**
