

FRESH TRACKS.

EXPLORE

THE EXTREMES.

COOLMAX
EcoMade

The sand fox draws fresh tracks in the searing heat and stays warm in icy nights. Ingeniously using his natural resources, he is a master of efficiency and thermoregulation. Join us on fresh tracks, reuse existing resources efficiently and try Merino blended with COOLMAX® EcoMade yarns obtained from post-consumer PET bottles.

• Recycled

• Thermoregulating

FOX*

FIBRE*

* The fox regulates its body temperature especially through its large ears. They work similar to the COOLMAX® EcoMade fibre: an enlarged surface allows moisture to evaporate more easily.

CAPRERA NM 60/1

55% COOLMAX® EcoMade polyester, 45% Merino wool 19,3µ Naturetexx® Plasma, GRS & bluesign® certified

Eco MOSES NM 30/1 AND NM 40/1

70% COOLMAX® EcoMade polyester, 30 % Merino wool 22,5µ TEC
