WEAVING A BETTER WORLD. TOGETHER.

We have a very important role to play in the world;
We create and develop fabrics.

The very nature of fabric is to bond, connect and protect. Without it, there would be no structure. Nothing to hold everything together. So our fabrics are essential. And so are we. And whereas the fabrics of time and space appear immutable, our fabrics are constantly evolving.

What we used to do half a century ago has held us in good stead and made us a powerful player in our industry. But we have moved on greatly since then.

Today, more than ever, we are aware of the very nature of our fabrics. We bond the latest trends in our industry to great products. We connect to our clients through diligent service. Most importantly, we protect the world we live in by consistently developing and delivering greener products. Again, we have a very important role to play in the world.

共同編織 更美好的世界

如果世界是一座舞台，而創造、發展這個舞台所需要的織物，就是弘裕全力扮演的角色。織物的本質，是由一縷縷絲線間的牽絆、交織與連結，才得以形成結構、相互依附，融為一體。

一直以來，織品是人類生活中不可或缺的陪伴。在恆久的時空之中，布料的設計和觸感看似一成不變，唯有我們不斷地打破框架，讓「織品」兩個字代表的意義，持續向前探索和躍進。

50多年前，我們就立足於紡織業，在屬於自己的利基上不斷壯大。現今的我們，也絕對沒有停下腳步，依然展望未來，向著更遠的地方邁進。多年的經驗累積，我們比以往的任何時候，都更了解織品的本質，也懂得在產品製作的過程之中，結合最新的流行趨勢。

我們希望，每位客戶都是弘裕長期的合作夥伴。創新、盡心、關心是我們永恆不變的價值；共同成長，是我們永續發展的宗旨。

在長久的客戶關係之外，弘裕的永續經營還有一個關鍵：持續研發更環保的產品，在製造過程注重每一個友善環境的細節。在那個美好的綠色世界裡，我們將參與其中、成為要角，共同保護我們生活的這個世界。

ECO-FRIENDLY

As members in the global arena, we follow a 3R (Recycled/Reduce/Reuse) principle to develop sustainable fabric, such as recycled polyester fabric manufactured from waste PET bottles; solution dyed (dope dyed) fabric in which the color pigment is embedded through pellets directly into the yarn and the pre-colored yarn is then made into fabric, there's a significant reduction in water, energy and chemicals used. We use recycled materials and green manufacturing and thus effectively conserve natural resources and reduce the burden on the environment without compromising quality.

WE LISTEN TO OUR PLANET. AND IMPROVE.
