

FRAMIS ITALIA
HEAT-WELDING SOLUTIONS

FRAMISITALIA
■■■

COMPANY OVERVIEW

HQ in Milano, Italy

70+ served countries

110+ workforce

45 years of manufacturing experience

Leading hot-melt adhesive films, tapes, patches and heat-bonding machines

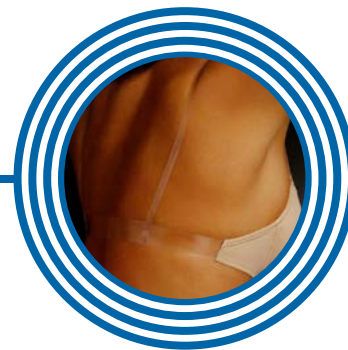

■ ■ ■ NEARLY 50 YEARS OF INNOVATION

Framis Italia Spa is established.

Framilon® stands out in replacing bulky traditional elastics.

1979

High-tech colored thermo-adhesive tapes are developed.

1995

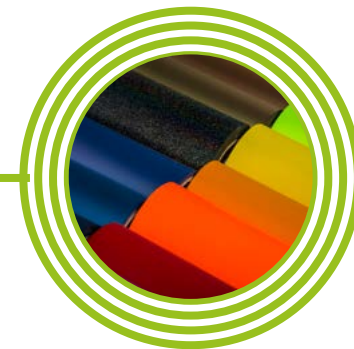

The first heat-welding machine is patented. NoSo® project is born.

2005

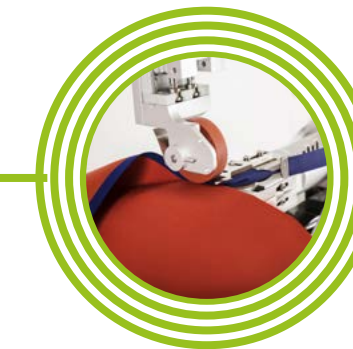

1990

LaBretella® enters the collections of well-known lingerie brands.

1998

Prada introduces in its 98 F/W collection our polyurethane film.

2022

Rio, first water-based tape and film is marketed.

Our commitment is to
design and **produce** the
most **sustainable** and
customizable thermo-
adhesive solutions.

■ ■ ■ SUSTAINABILITY COMMITMENT

We are details' makers, but we want to help our customers **change the fashion industry.**

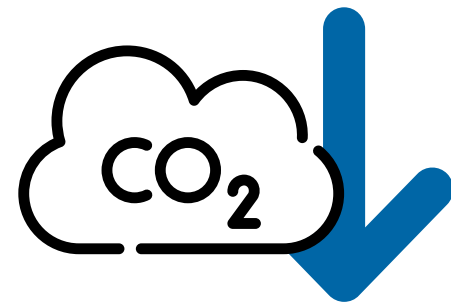

For this reason, we have set a series of strategic ideas and practices to implement and further develop **innovative solutions** to accelerate **lasting, positive change** for our people, communities, and environment.

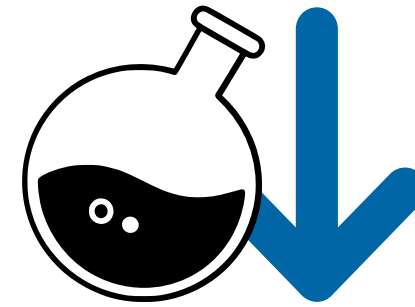

■ ■ ■ SUSTAINABILITY STRATEGY

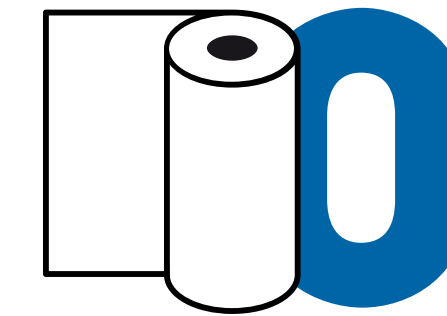

2025 SUSTAINABILITY GOALS

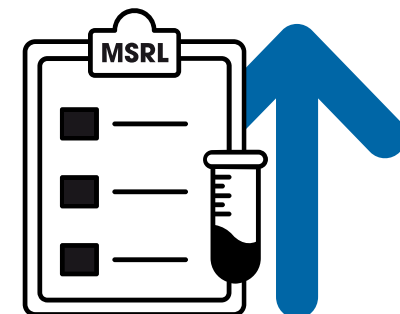

-20% REDUCTION IN CO₂ EMISSIONS
(2019 BASE YEAR)

-50% REDUCTION IN SOLVENTS USE IN OUR
PRODUCTION CYCLE (2021 BASE YEAR)

ZERO NEW PRODUCTS INVOLVING
HAZARDOUS SOLVENT COATINGS

+20% CHEMICALS REGISTERED TO THE
ZDHC GATEWAY (2021 BASE YEAR)

ZERO WORKPLACE
ACCIDENTS

■ ■ ■ ZERO-SOLVENT STRATEGY

In line with our efforts to **switch from solvent to water coatings**, we recently launched Rio, the first long-lasting water-based and DMF-free tape and film.

Rio is part of a **growing family of water-based bonding solutions** made with no dissolution of the PU resin in DMF performed to produce the product.

■■■ IMPACT REPORT

In 2022, we released our first **Impact Report** to provide **transparency** and **accountability** for the Company's actions. It describes our sustainability efforts and the commitment to continuous improvement to reduce our environmental impact and generate positive social impact.

The report helps us to **identify improvement areas** and **measure progress** towards sustainability goals.
