MUNICH - Organisers of the Performance Days say a great variety of textile suppliers, core accessory producers, and yarn manufactures are amongst over 180 confirmed exhibitors for the November 2017 edition of the functional fabrics trade show.

A biannual trade show – next to be held 8-9 November in Munich, Germany - Performance Days is intentionally synchronised with industry deadlines to enable designers and product and purchasing managers to perform timely sourcing for the upcoming summer and winter collections in April/May and November. Well-known brands such as: 3M, Polartec, PrimaLoft, Schoeller Textile, Singtex, Sympatex, and Toray are amongst those companies confirmed as exhibitors.

In addition to textile suppliers, core accessory producers such as yarns from Flocus, Hologenix, and Nilit will also be showcased. Textile finishings by Polygiene as well as accessories by ACG Accent, Prym, Rudholm&Haak, Thermore and YKK promise to be other highlights of the show.

Unique workshops are offered by 37.5/Cocona, Freudenberg, HeiQ, Invista, Lenzing, Microban, Polygiene, and We aRe SpinDye.

See the next [print issue of T.EVO](#) for insights from some of the companies set to showcase at Performance Days.
