### November's Performance Days to focus on thermal technologies

The forthcoming Performance Days event in Munich (November 8-9) will have the development of fibres, fabrics and smart technologies for keeping the wearer's body warm as its central focus.

Its focus topic will be: 'Thermal Technologies: from fibre to smart textiles'.

sportstextiles.com is a subscription based website. Users can access:

- News, updated five times a day
- Twice-weekly emailed newsletter
- Technical library of WSA articles, going back to 2000
