## Nearly 300 exhibitors at November's Performance Days exhibition

The organisers of the Performance Days exhibition have revealed that more than 100 new companies will be among the nearly 300 exhibitors that will be present at the next edition of the show (November 28-29).

November's exhibition will be the first to take place at the Messe München site in Munich, which offers a much larger space than its previous venue, the MTC exhibition centre, also in Munich.

In addition to the exhibitors, the hall will feature four boulevards. The first is dedicated to the show's focus topics, which for this edition is 'Water - Our Responsibility'. The second is dedicated to the event's expert talks, which will include information about new trends for winter 2020, as well as a number of presentations related to the focus topic.

The third boulevard will be the location of the Performance Forum, where the most interesting new materials are displayed. In addition, the organisers will showcase the highlights from the first Functional Fabric Fair, which took place in New York in July.

The final boulevard is reserved for the food court.
