

Changes to winter edition of Performance Days

04/03/2022

Organisers of the Performance Days fabric exhibition have announced changes to their programme for 2022.

The April edition of the event will go ahead as planned in Munich's main exhibition venue, the Messe München exhibition centre, on April 27 and 28. The changes will come later in the year.

A winter edition will go ahead on November 3 and 4, but the venue will be the city's MOC Center. And in years to come, the organisers have said they intend to bring the winter edition of Performance Days forward in the calendar to October.
